

STATE OF NORTH CAROLINA TOWN OF WALLACE

RESOLUTION 22-23-01

Adoption of Five-Year Capital Improvement Plan

WHEREAS, the Town Council of Wallace, North Carolina has reviewed the Five-Year Capital Improvement Plan (CIP) as presented by staff; and

WHEREAS, the Council desires to formally adopt the plan,

NOW, THEREFORE, BE IT RESOLVED, by the Town Council of Wallace, North Carolina that the Town's Five-Year Capital Improvement Plan effective July 1, 2022 is hereby approved and adopted.

This Resolution shall take effect immediately upon its passage.

Adopted this the 9th day of June 2022

Jason Wells, Mayor

Jackie Nicolson, Town Clerk

Capital Improvement Plan FY23-27

Section 1: Overview of the Capital Improvement Plan

The Capital Improvement Plan (CIP) is a planning tool by which the Town Council allocates limited financial resources to implement long-term goals of the Town. The purpose of the CIP is to forecast and match projected revenues and major capital needs over a five-year period. Capital planning is an important management tool that strengthens the linkage between community infrastructure needs and the financial capacity of the Town.

The CIP is a multi-year plan for major capital expenditures such as the acquisition of land, construction or significant renovation of public facilities (i.e. buildings/parks), construction of new transportation infrastructure (i.e. roads, sidewalks, multi-use paths), expansion or significant renovation of water, wastewater, airport, or stormwater infrastructure, capital equipment to support operations, or any combination of the above. Projects eligible for inclusion in the CIP are those with an asset value of greater than \$25,000 and a useful life of greater than three years.

When identifying new projects, staff looks to the long-term priorities and direction set by Town Council and submits formal requests through the CIP process. A CIP worksheet is completed for each project. The worksheet includes a description of the project, focus areas addressed, the estimated cost of the project, and recurring costs associated with a completed project (i.e. additional staff, additional utilities, etc.) as well as possible funding sources.

Once adopted by the Town Council, the CIP becomes a statement of town policy regarding the need, priority, timing, and funding of future capital projects. The Capital Improvement Plan is simply that – a plan. As such, projects and funding mechanisms are subject to change based on new or shifting service needs, special financing opportunities, emergency needs, or other directives or priorities established by the Town Council. Future needs and financial constraints may result in changes in priority over the five-year period; and because priorities can change, projects included in outward planning years are not guaranteed for funding. The CIP represents the best judgment of Town Administration and Town Council at the time the Plan is adopted. Priorities established in the CIP subsequently guide decisions made by Town Administration and the various boards and commissions appointed by Town Council.

The Town of Wallace CIP achieves five major objectives as a component of the Town's budget and financial planning process:

- Helps the Town rationally and intelligently plan for the repair, replacement, and acquisition
 of capital items that are necessary in providing high-quality services to the citizens of
 Wallace.
- Assists in fiscal planning by forecasting capital demands together with future revenues and expenditures.
- Ensures better coordination, evaluation, and planning of projects to serve the community and its needs.
- Serves, together with the annual budget and other financial plans, as a guide to decision-making for the Town Council, Town Manager, and staff.
- Serves as a systematic and comprehensive analysis of capital needs, increasing the probability of making rational budgetary judgments since improvements are identified, prioritized, and matched to the projected fiscal resources of the Town.

Capital Improvement Plan FY23-27

Relationship to the Annual Operating Budget

Some CIP projects are funded through annual operating funds, such as the General Fund, Water and Sewer Fund, Stormwater Fund and Airport Commission Fund. In these cases, the CIP and the Annual Operating Budget are directly linked as CIP projects become authorized through the adoption of the Annual Operating Budget. Projects funded through debt financing also impact the operating budget through ongoing debt service expense. Finally, some completed CIP projects will directly impact the operating budget as they will require ongoing expenses for staff and other operating costs.

CIP Structure

The CIP is organized into seven functional categories, in order to group projects with similar items. The following categories have been identified:

Administration: funds the acquisition of assets for the administrative, finance and/or the planning departments of the Town or other assets that cannot be classified in one of the other functional categories listed below.

Parks, Recreation, and Cultural Resources: funds the acquisition of land for new parks, libraries and greenway facilities, the construction of park and recreation amenities, and major maintenance of current facilities. Implementation of the Parks and Recreation Master Plan is funded in this category.

Public Safety: funds the acquisition of capital equipment to support the operations of Town's public safety departments (Police and Fire). Public safety facilities are considered in the public facilities category.

Public Facilities: funds construction and major maintenance of general government and public safety facilities and infrastructure. This category also funds improvements to communications and technology infrastructure.

Public Works: funds projects designed to manage and mitigate the effects of stormwater runoff, manage the collection and disposal of solid waste, and maintain streets. These projects include structural improvements, Stormwater Control Measure (SCM) construction, and major maintenance of this infrastructure. They also include equipment needed to manage solid waste collection and maintain Town streets.

Water and Sewer: funds the construction and improvement of water and sewer infrastructure. These projects include main additions and replacements, water/wastewater treatment plant renovations/expansions, filter rehabilitation, pump station additions, major maintenance of infrastructure, and the equipment necessary to maintain the system.

Airport Commission: funds the construction and improvements to the Town's airport of infrastructure. These projects include additions and replacements, facility renovations/expansions, major maintenance of infrastructure, and the equipment necessary to maintain the airport.

Capital Improvement Plan FY23-27

Capital Improvement Funding

The sources of funding used to execute the Plan are as important as the capital projects contained in the Plan. Capital Improvements for the Town of Wallace are funded using a variety of sources that are broadly categorized as cash or debt financing.

Cash, or pay-as-you-go (paygo), funds come from sources such as tax revenue, development related fees (recreation, transportation, and capacity fees), program fees, State revenue, and interest earnings. Some of these sources, such as State revenue from the Powell Bill, Town recreation fees, and certain others, may only be spent to meet certain needs. Other revenue sources come with no restriction on the needs they may be used to address. Major funding sources for the CIP are described below:

<u>General Fund</u>: General Fund revenue, such as ad valorem taxes, sales taxes, utility taxes, and other similar revenues are used to fund Town operations and may be used to fund capital projects such as facility improvements, transportation system improvements, and other similar projects. Compared to other sources, General Fund resources are a flexible revenue source without restrictions on their use.

<u>Enterprise Funds</u>: Enterprise funds, such as the Water and Sewer Fund, Stormwater Fund and the Airport Commission Fund, collect user fees as part of their operations, then invest a portion of that revenue into capital projects. The Town uses these funds only for corresponding enterprise projects. For instance, the Water and Sewer Fund only pays for projects related to the water and sewer systems, and not for projects related to any General Fund related project.

<u>Water/Sewer Capital Reimbursement Fees</u>: These fees are charged, based upon a Town Council-approved System Development Fee Schedule, to developers of land within the Town of Wallace to pay for the capital facility burden created by new development. Revenue from these fees is restricted to be used for capital improvements to the water/sewer system or to fund payment of debt service for improvements to these systems.

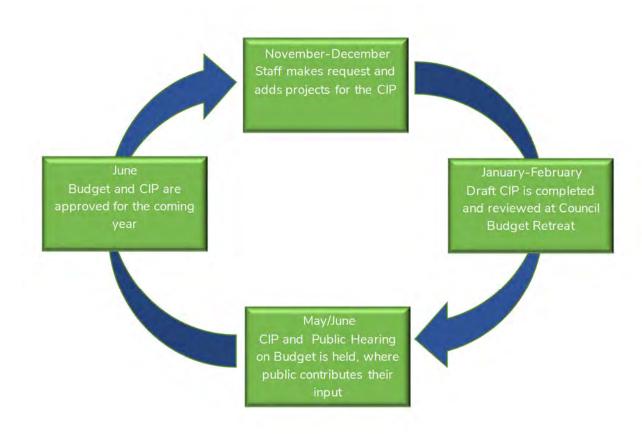

<u>Debt Financing</u>: For debt financing, the Town uses several types of debt mechanisms, including general obligation bonds, revenue bonds, and traditional lease-purchase or installment financing. The mechanism selected varies depending on the level of funding needed, the term of the need, and current debt market conditions. General obligation bonds are approved by voters and are backed by the Town's taxing authority to repay the bonds. Revenue bonds pledge the revenue generated by specific enterprise (water, sewer, stormwater) charges.

<u>Reserve from Prior Years</u>: As capital projects are completed, any unspent budgeted amounts accumulate into capital reserves, which are available to fund future projects. Capital reserves can also build up when the Town collects revenue in excess of the amount budgeted for development fees described above.

Capital Improvement Plan FY23-27

The CIP Process

The process for developing the CIP, as illustrated below, begins in the fall of each year as staff considers unmet capital needs to be considered for the upcoming budget. For each project, staff in the requesting department completes a CIP worksheet and compiles supporting documentation. All CIP project requests are due by December 31st of each year.

Following an evaluation of current projects and needs, new projects are proposed to the 5-year plan. Using these proposals alongside preexisting projects, the Town Manager and Finance Director meet to review the projects across six categories including: public safety/ legal mandates, council goals, protection and maintenance of existing assets, availability of outside funds, the economic payback and efficiency and how the project may link with other goals and objectives of the Town. The following point scale is used to rank the projects:

	Public Safety/Mandated	20 points
\triangleright	Protects/Maintains	20 points
\triangleright	Council Goal	20 points
	Economic Payback/ Efficiency	15 points
	Outside Funds	15 points
	Links with other Projects	10 points
	Total	100 points

Capital Improvement Plan FY23-27

The total points for each project merely represent a guideline and are not the determining factor for project funding. Town Board must approve projects, which are subject to change based on shifts in Board priorities and the economy. Each project can receive all, half, or no points for each category.

Based on the initial rankings by the committee, a draft CIP is presented to the Town Council at their annual retreat in February, The Mayor and Town Council Members are given the opportunity to review the projects recommended to be funded, those that did not get funded and to propose other projects they believe should take priority.

While the CIP committee rankings focused on technical factors and budget constraints, the Mayor and Town Council review the projects while keeping in mind how well they address the Town Council's goals.

Based on the responses and feedback for each proposal from the Mayor and Town Council, a prioritization is formed. This order reveals which projects the Mayor and Town Council determine are most critical to achieving the Town's goals and, accordingly, have the most pressing need for immediate funding.

Following Town Council input at the annual retreat, the draft CIP is updated and used as a basis for budgeting in the coming fiscal year and in formulating financial forecasts prepared as part of the budget process. Public input is solicited through two public hearings held during the budget process. In FY 20-21, the Town also introduced an online budgeting priorities survey, detailed in the following section.

CIP Practices

Long-Range Cost Estimates: Using the upcoming fiscal year as the base, staff will apply cost escalators to better estimate future construction costs. Staff applies the escalator to new construction and significant building rehabilitations. In some categories, such as public utilities and transportation, staff applies other escalators developed for those specific service areas.

Closing Projects: Projects are closed when the approved scope of work is complete. Staff reviews project statuses periodically to identify projects that are finished and can be closed. If the budget for a completed project is not fully expended, generally, the budget is closed, and the remaining balance accumulates in the fund balance. The accumulated fund balance is available to pay for future projects.

Horizon Issues: The proposed CIP funds the Town's highly prioritized needs. Staff reviews and analyzes the business cases supporting these projects and considers them ready to move forward. In many situations, however, the Town has identified a future need, but has not yet completed a detailed analysis, considered options, or designed a specific facility. These projects include facilities, capital maintenance, and business systems that will be needed in the future, often beyond the CIP's five-year timeframe.

Planning By Fund

The following sections represent a description of the projects submitted, by category, for the fiveyear planning timeframe under consideration. Each category begins with a brief description of what types of projects are funded and includes a tabular summary of all projects considered

Capital Improvement Plan FY23-27

and the proposed revenue source to fund the projects in each year. At the end of each section, there is a summary table showing the total cost of the projects in each year and the total of each revenue source. More details regarding the cost of borrowing is provided in each summary section. The reference to "Local Revenue" in the revenue portion of the tables is indicative of the need for current year funding for some projects/purchases in each year. This could include appropriation of reserve funds from one or more of the major funds: General, Water and Sewer, Stormwater and Airport Commission.

Section 2: General Fund

A majority of projects included in the CIP are housed in the General Fund. This revenue is generated in large part by ad valorem taxes, along with sales taxes, utility taxes, and other similar revenues.

The types of capital projects that qualify for this fund include facility improvements, transportation system improvements, and other similar projects. Compared to other sources, General Fund resources are a flexible revenue source without restrictions on their use.

The icons below signify each category within the General Fund. They are located on top right corner of the pages that are associated with their projects.

Parks, Recreation & Cultural

Public Facilities

Public Works

Capital Improvement Plan FY23-27

Administration Category Projects

Projects Funded: Projects meeting the requirements to be considered in the capital improvement plan but do not fit in one of the other categories are reported in the administration category. Vehicles, equipment and information technology items for the administration, finance and planning departments are also reported here.

The table below shows each of the projects submitted for consideration in this year's CIP process and the estimated cost of the project in each fiscal year in the plan. Section 6 of this document contains detailed information regarding the proposed funding source for each individual project.

Project	2022-2023	2023-2024	2024-2025	2025-2026	2026-2027	Horizon	Total Capital Cost
Accounting Software Upgrade	-	-	-	-		50,000	50,000
Code Enforcement Vehicle	-	-	-	-	-	25,000	25,000
Total					•	75,000	75,000

Horizon

Accounting Software Upgrade

\$ 50,000

Current software package the Town has was installed over ten years ago. Employee time clock software is also dated and has issues. Several advances in municipal software have been made and a new package is recommended that is better suited for the Town as it grows.

Code Enforcement Vehicle

\$ 25,000

Code enforcement uses a 2008 Chevy Tahoe. Recommendation is to surplus the vehicle and replace with a more cost-effective unit.

Capital Improvement Plan FY23-27

Parks, Recreation, & Cultural Resources Category Projects

Projects Funded: The construction of park and recreation amenities, expansion of existing parks, and major maintenance of current facilities.

The table below shows each of the projects submitted for consideration in this year's CIP process and the estimated cost of the project in each fiscal year in the plan. Section 6 of this document contains detailed information regarding the proposed funding source for each individual project.

Project	2022-2023	2023-2024	2024-2025	2025-2026	2026-2027	Horizon	Total Capital Cost
Inclusive Playground	325,000	-		-		-	325,000
Farrior Park Phase 2 - PARTF	586,300	250,000		-	-	-	836,300
Grist Mill	367,880				250,000	-	617,880
Tennis Courts - Clement Park	-	400,000			-	-	400,000
Art Meyer Improvements - Dugouts/Fencing	37,500	37,500			-	-	75,000
Farrior Park Phase 3 Ballparks, Amphitheater		75,000	1,000,000	1,000,000	5,000,000	-	7,075,000
Total	1,316,680	762,500	1,000,000	1,000,000	5,250,000		9,329,180

FY 2022-23

Inclusive Playground

\$ 325,000

An inclusive playground is envisioned to be built at Clement Park. This will be the first all-inclusive playground in the County which will allow children of all abilities and development stages to play. Town Council has approved \$75,000 toward this project and outside contributions will be used to complete the playground

Farrior Park at Boney Mill

\$ 836,300

The Town received a second PARTF grant totaling \$500,000 to develop Farrior Park at Boney Mill. The second phase will consist of walking trails, picnic areas, canoe launch and more. Grant is a 50/50 match.

<u>Grist Mill</u> \$ 617,880

The Town has been awarded a grant to make repairs to the Grist Mill at Boney Mill. Plans are to add the facility to national register of historical landmarks. A second phase will add a working paddle wheel. Mill will be part of Farrior Park and opened for tours.

Art Meyer Repairs

\$ 75,000

Fencing and dug outs at Art Meyer Field need repair. Due to multiple floods, dug outs and fencing are unsafe.

Capital Improvement Plan FY23-27

Clement Park Tennis Courts

\$ 400,000

Existing tennis courts need repair. Evaluation has determined the foundation needs to be repaired. Courts are used by Duplin County Schools by Wallace Rose Hill High School. Town will seek to partner with School system and look for grants to make needed repairs.

Farrior Park Baseball Fields

\$7,075,000

The third phase of development for Farrior Park at Boney Mill calls for 5 baseball diamonds, two soccer fields, amphitheater and supporting infrastructure. Costs are estimated The Town will seek additional PARTF grants, community contributions as well as possible naming rights to the facility.

Capital Improvement Plan FY23-27

Public Safety Category Projects

Projects Funded: Acquisition of capital equipment to support the operations of the two public safety departments in the Town – Police and Fire. (Note: Public safety *facilities* are considered in the *public facilities* category.)

The table below shows each of the projects submitted for consideration in this year's CIP process and the estimated cost of the project in each fiscal year in the plan. Section 6 of this document contains detailed information regarding the proposed funding source for each individual project.

Project	2022-2023	2023-2024	2024-2025	2025-2026	2026-2027	Horizon	Total Capital Cost
Portal Hydraulic Pump	48,000	-	-	-		-	48,000
800mhz Radios	240,000	-	-	-	-	-	240,000
Airpacks	-	380,000	-	-	-	-	380,000
Fire Truck - Aerial					1,000,000		1,000,000
Patrol Units - 3	-	120,000	120,000	120,000	120,000	120,000	600,000
Total	288,000	500,000	120,000	120,000	1,120,000	120,000	2,268,000

FY 2022-23

Portal Hydraulic Pump

\$ 48,000

Fire department is recommending the acquisition of a portable hydraulic pump that can be used to operate current fire and rescue equipment in remote areas.

800 mhz Radios \$ 240.000

Current radio system utilized by fire department is being phased out and a new 800 mhz radio system will be required for all public safety organizations. The department has teamed up with other departments to seek a grant to pay for the new system. A 10% match will be required with the grant.

FY 2023-24

Airpacks \$380,000

The department maintains 38 air packs for firemen. To remain NFPA compliant, units are to be replaced every 10 years. Current air packs were purchased in 2014. Department is seeking grant assistance to with costs.

Police Patrol Units \$ 120,000

Police Department maintains a fleet of 16 units. Estimated life span for a patrol unit is 6-7 years. Recommendation is for Town to implement a three-unit rotation beginning in FY23/24 and budget to replace three units per year.

FY 2026-27

Fire Truck - Aerial \$1,000,000

Department has determined an aerial fire truck would be beneficial in the next five years as the Town continues to see apartment complexes built and above retail housing grow in the Town limits.

Capital Improvement Plan FY23-27

Public Facilities Category Projects

Projects Funded: Construction and major maintenance of general government and public safety facilities and infrastructure, including upgrades to existing Town facilities, libraries, new public safety facilities, and additional public works facilities.

The table below shows each of the projects submitted for consideration in this year's CIP process and the estimated cost of the project in each fiscal year in the plan. Section 6 of this document contains detailed information regarding the proposed funding source for each individual project.

Project	2022-2023	2023-2024	2024-2025	2025-2026	2026-2027	Horizon	Total Capital Cost
100KW Backup Generator - PW Operation Center	60,000	-	-	-		-	60,000
Pole Barn - Public Services Operations Center - SPLIT	50,000	-	-	-	-	-	50,000
Clement Park Community Building	-	250,000	250,000	-	-	-	500,000
Clement Park Parking Lot	-	-	-	-	-	250,000	250,000
Public Safety Building	-	1,000,000	5,000,000	2,000,000	-	-	8,000,000
Town Hall Renovations	-	-	-	500,000	-	-	500,000
Fueling System SPLIT	-	-	-	-	-	85,000	85,000
Library - ADA Bathroom	-	-	-	-	-	50,000	50,000
Memorial Reflection Fountain	-	-	-	-	-	25,000	25,000
Total	110,000	1,250,000	5,250,000	2,500,000	-	410,000	9,520,000

FY 2022-23

100KW Backup Generator

\$ 60,000

A grant request has been made for a backup generator at the public works operations center. Generator will allow facility to be operational during inclement weather and when power has been disrupted.

Pole Barn - Public Services Operations Center

\$ 50,000

A pole barn is recommended to be built at the new Public Works Operations Center to store equipment. Barn will protect equipment from the weather as well as staff while servicing equipment. Costs will be split between General Fund – 33% and Water and Sewer Fund – 66%

FY 2023-24

Clement Park Community Center

\$ 500,000

Facility needs new roof and other improvements to be suitable to use. Once renovated, facility can provide space for additional recreation activities for community as well as meeting spaces for nonprofit organizations. It will also serve as shelter during severe weather events and/or place to coordinate supply distributions.

Public Safety Building

<u>\$8,000,000</u>

Police and Fire departments have outgrown their current space. The Town entered into a needs assessment and design services agreement with an architecture firm last year. Facility will be built on current Town Hall campus.

Capital Improvement Plan FY23-27

FY 2025-26

Town Hall Renovations

\$ 500,000

As part of the public safety building project, once Police and Fire move out of their current spaces, town hall will be renovated. Envisioned are new council chambers, bringing planning and code enforcement into main building and renovated spaces for administration and finance.

Horizon

Clement Park Parking Lot

\$ 250,000

Once Clement Park Community building is renovated, additional parking will be needed. A new parking lot would also benefit the park.

Fueling System \$85,000

Currently the Town uses commercial gas stations to fuel Town fleet. Recommendation is to install our own fuel system at the Public Works Operations Center. During States of Emergency or other server weather events when power is disrupted, Town fleet would still be able to fuel and operate. Costs would be split with Water and Sewer Fund.

Library - ADA Bathroom

\$ 50,000

All public buildings should be ADA compliant. The library needs to have a handicap bathroom installed. Plans are to rework existing public bathrooms and storage room to accommodate a unisex bathroom with handicap stall and fixtures.

Memorial Reflection Fountain

\$ 25,000

Current fountain is not in operation as repairs are needed. Plans call to have the interior tile work redone and a granite cap and sides installed to prevent future damage.

Capital Improvement Plan FY23-27

Public Works & Environmental Services Category Projects

Projects Funded: Construction of new roadways, improvements to existing roadways, sidewalks, bicycle and pedestrian facilities, transit projects, and railroad crossing improvements. They also include projects designed to manage and mitigate the effects of stormwater runoff, and maintain streets. These projects include structural improvements, SCM construction, and major maintenance of this infrastructure. They also include equipment needed to manage maintain Town streets.

The table below shows each of the projects submitted for consideration in this year's CIP process and the estimated cost of the project in each fiscal year of the plan.

Project	2022-2023	2023-2024	2024-2025	2025-2026	2026-2027	Horizon	Total Capital Cost
Annual Miscellaneous Drainage Improvements	84,829	68,000	68,000	68,000	68,000	68,000	424,829

General Fund Appropriations - Poewll Bill	99,000	110,000	110,000	710,000	110,000	135,000	1,274,000
Total	723,829	178,000	178,000	778,000	178,000	203,000	2,238,829

Continuous Projects

Annual Miscellaneous Drainage Improvements

<u>\$ 84,929</u>

Annually

This ongoing program addresses various deficiencies throughout Wallace within the municipal drainage system concerning the safe and efficient management of stormwater. The program would address complaints generated by customers for various small drainage projects and avoid or minimize risk to private property. Without funding for this program, we would have to delay and bundle small projects while seeking a funding source, in some cases for a year or longer. Delaying response could adversely impact private property.

Annual Miscellaneous Road & Sidewalk Improvements

\$ 25,000

Annually

This ongoing program addresses various deficiencies throughout Wallace on the municipal street system with accessible ramps and crosswalks, sidewalk maintenance and completion of short gaps in sidewalks, traffic control and warning device upgrades, and other related requests to provide a safe and accessible transportation system for all users. Funding sources for these projects come from Powell Bill allocation and " In Lieu of Sidewalk" funds reserved in the Town fund balance.

Capital Improvement Plan FY23-27

Annual Pavement Management

\$ 85,000 Annually

The Town is responsible for maintaining 23 miles of municipal streets. Street mileage is slowly growing with ongoing development. The Town has performed an in-house survey of our streets and is creating a priority list of streets needing repairs or repaving. Work will be done as funds become available thru the annual Powell Bill allocation. Allocations have been dropping over the last few years while paving costs have increased. The Town may need to consider adding additional revenue sources from the General Fund to address this shortfall. Only Powell Bill funds are considered in this year's CIP and no additional funds are allocated from the General Fund.

FY 2022-23

Flood Mitigation Project - Currie/Duplin Street

\$ 250,000

Open stormwater ditch is failing and encroaching on neighboring properties. Ditch side walls need to be stabilized. The Town has applied for a Golden Leaf grant to assist with this project

Stormwater Drain Replacement

\$ 30,000

Storm drainpipe is failing. Project will replace 240 feet of pipe off of Cliff Street and runs across United Christian Fellowship Church property.

Street Sweeper \$ 260,000

Current street sweeper is seven years old and due for replacement.

FY 2025-2026

Rose Avenue - Farrior Park

\$ 600 000

This project connects Rose Avenue to Harry Nickelson Lane, widens and adds a traffic circle at Boney Mill Park. Road is part of master plan for Farrior Park.

Horizon

This project installs new welcome signs or improves existing signage at the four main corridors into Wallace. Town has had preliminary discussions with NCDOT regarding location for two new signs and possible assistance with landscaping costs.

Capital Improvement Plan FY23-27

General Fund Summary

The table below shows the total of the capital needs in each of the CIP categories supported by the General Fund and the revenue sources proposed to support these needs.

Department	2022-2023	2023-2024	2024-2025	2025-2026	2026-2027	Horizon	Total
Administration	-	-	-	-	-	75,000	75,000

After capital assets are acquired or constructed, most will entail ongoing expenses for routine operation, repair, and maintenance. These operations, repair, and maintenance costs are accounted for annually in each year's operating budget.

Parks, Recreation, & Cultural Arts Category: Once constructed and operational, Farrior Park at Boney Mill will require ongoing costs such as staff wages, mowing, and regular cleaning and building maintenance.

Public Safety Category: New fire trucks and police cars will incur regular maintenance and fuel. These costs should be offset with the costs to maintain older equipment being replaced.

Public Facilities Category: New public safety center will incur future costs including cleaning and maintenance and utility services.

Public Works Category: New street sweeper will incur regular maintenance and repair costs over the course of its useful life

Section 3: CIP Financial Impact Analysis on General Fund

A key element of the CIP is the financial impact analysis that discusses the effects of capital spending on the town's operation costs, debt capacity, and other important debt ratios. It is important to understand how capital spending affects these indicators because the Local Government Commission (LGC) and bond rating agencies use them to evaluate the town's financial condition and to issue ratings.

Projections and Estimates

Proper financial planning requires projections and estimates for expenditures, revenues, and other financial indicators. Expenditure and revenue estimates require forecasts for changes in

Capital Improvement Plan FY23-27

population, assessed property value, and other factors such as changes in the economy. The CIP projections represent a six percent growth factor for operations expenditures throughout the five-year scope. We anticipate continued growth in property values. Over the last two years, the Town has seen a 4.92% average increase in its property tax levy. Duplin County will perform a revaluation in 2022 that will affect the assessed value and revenue neutral tax rate for Wallace.

Debt Ratios

The large costs associated with capital projects may require financing, which results in debt obligation for the Town. The LGC and bond rating agencies assess the Town's ability to incur and repay debt through various debt capacity ratios and indicators. In the General Fund, the Town evaluates net debt as a percentage of total assessed value of taxable property, the aggregate ten-year principal payout ratio, and the ratio of debt service expenditures as a percent of total fund expenditures.

Net debt per assessed valuation is an important indicator because it considers the Town's largest revenue source and greatest means for repaying debt. This is a measure of debt capacity as well as debt burden. This ratio divides the Town's net debt by its total assessed value, where net debt is defined as all tax-supported debt. N.C.G.S. 159-55 limits net debt to eight percent or less of a local government's total property valuation. Wallace's debt-to-assessed valuation ratio for Fy21/22 was 2.1 percent. Wallace's legal debt limit, based on the July 1, 2021 audited valuation was \$15,472,734.

The 10-year payout ratio measures the amount of principal being retired in the next 10 years. As an indicator, it determines if debt is backloaded, which can cause concern for long-term financial stability. Wallace has set a policy establishing a minimum 10-year payout ratio of 60%. The Town's current ratio is 94.23%. The Town therefore has capacity to finance some general fund projects for longer terms.

Debt service as a percentage of total expenditures measures annual debt service payments as a portion of the Town's General Fund expenditures. Debt service payments can become a large portion of a town's budget and should be monitored to ensure acceptable levels. Too much debt service may indicate excessive debt and fiscal strain. Bond rating agencies consider a net debt service percentage between 15 and 20 percent to be high. A ratio below five (5) percent indicates capacity for significant new debt. The Town's policy is to maintain a net debt service ratio of less than 12 percent. The General Fund's debt service ratio for FY22/23 is projected to be 4.61 percent, providing ample debt capacity for the Town.

Pay-as-go financing can help keep key debt ratios in acceptable range by eliminating new debt obligations and annual debt service payments. The proposed CIP indicates differences from year to year in pay-as-go financing over the five-year period. This is due to the significant costs associated with some larger projects such as roads or a new fire station. If debt ratios begin to approach unacceptable ranges, delaying projects or using pay-as-go financing should be considered to keep the Town in good financial standing and reduce fiscal strain. Other factors bond rating agencies consider when assessing a town's financial condition may include the community's wealth, tax base, sources of revenues, and overall economy.

Capital Improvement Plan FY23-27

Section 4: Water and Sewer Fund

Projects assigned to the Water and Sewer category are funded through the Water and Sewer Enterprise Fund. This fund only pays for projects related to the water and sewer system, and not for projects related any General Fund related project.

The types of capital projects that qualify for this fund include main additions and replacements, water/wastewater treatment plant renovations/expansions, filter rehabilitation, pump station additions, and major maintenance of infrastructure. They also include equipment necessary to maintain the system.

The icon below signifies the Water and Sewer Fund category and is located on the top right corner of the pages that are associated with these projects.

Capital Improvement Plan FY23-27

Water and Sewer Utility Projects

Projects Funded: Construction and improvement of water and sewer infrastructure. These projects include main additions and replacements, water/wastewater treatment plant renovations/expansions, filter rehabilitation, pump station additions, and major maintenance of this infrastructure.

The table below shows each of the projects submitted for consideration in this year's CIP process and the estimated cost of the project in each fiscal year of the plan.

Project	2022-2023	2023-2024	2024-2025	2025-2026 2026-2027		Horizon	Total Capital Cost
Pickup Truck	30,000	-	-	-		-	30,000
Sewer Line Extension - 830 Project	1,259,060	-	-		-	-	1,259,060
Sewer Line Extension - Valley Protein	1,000,000	5,000,000	-	-	-	-	6,000,000

Jib Crane - WWTP	40,000	-	-	-	-	-	40,000
Grit Removal System	165,000	-	-	-	-		165,000
SBR #3 Decanter Upgrade	315,000	-	-	-	-	-	315,000
Total	4,244,060	8,213,287	1,450,000	250,000	250,000	250,000	14,657,347

FY 2022-23

Pickup Truck - Water

\$ 30,000

Unit 269 will be replaced with new truck. Old unit will be transferred to buildings department. Unit from buildings will be sold at auction

Sewer Line Extension - 830 Project

\$1,259,060

Project consist of approximately 2½ miles of new sewer line along River Road to provide additional capacity to River Landing. Project is funded by State grant and local developer. Project has been approved by Council and is moving forward – (CPO# 18-19-06)

Sewer Line Extension - Valley Protein

\$6,000,000

Project consist of approximately a 6 mile sewer line extension to Valley Protein in Rose Hill. Line will also open up more development opportunities for Wallace and the Town of Teachey. Project is fully funded with State grant.

Advanced Metering Infrastructure (AMI)

\$1,300,000

This project deploys AMI interfaces for all water meters. Upgrading to AMI technology will allow staff to take meter readings from a fixed location and have the readings enter directly into billing software. A large portion of the Town's current meters are inoperable or not reading correctly. Town has contracted with MeterSys to help evaluate best system for our needs as well as assist the Town with the installation of system the Town will ultimately go with.

Capital Improvement Plan FY23-27

PLC Upgrade - WWTP

\$ 135,000

Current Computer system used to operate the wastewater treatment plant is outdated and no longer supported. New system is needed and is a critical component of the operation of the plant.

Jib Crane - WWTP \$ 40,000

Plant's existing crane is broken. Project is to replace with new crane

Grit Removal - WWTP \$ 165,000

Existing grit removal system at wastewater treatment plant has been nonoperational for several years. A new system is needed. New system will reduce wear and tear on down the line equipment and pumps, improve the operation of the plant.

SBR # 3 Decanter upgrade - WWTP

\$ 315,000

SBR # 3 is next decanter to be upgraded. Upgrade will reduce discharge of solids from plant caused by air leaks in current system.

FY 2023-24

Sewer Rehab Phase 2

\$ 1,520,720

Project consist of repairing 18,235 feet of 40-year-old sewer lines. Needed repairs were identified as part of an AIA grant from the State.

Sewer Rehab Phase 3

\$<u>1,680,587</u>

Project consist of repairing 23,284 feet of sewer lines. Needed repairs were identified as part of an AIA grant from the State. CIPP liner will be processed used to repair lines.

Sewer Rehab - River Landing

\$ 1,012,000

Project consist of repairing various sections of the River Landing sewer system. Project was identified as part of an AIA grant from the State.

FY 2024-25

New Well -#14 \$1,200,000

Project consist of replacing well # 14 with new well. Current well is drawing sand and new well needs to be drilled.

Capital Improvement Plan FY23-27

Water and Sewer Fund Summary

The table below shows the total of the capital needs for the Water and Sewer Fund category and the revenue sources proposed to support these needs. Local revenue is indicative of the need for current year revenue supported funding for some projects/ purchases in each year.

Project	2022-2023	2023-2024	2024-2025	2025-2026	2026-2027	Horizon	Total Capital Cost
Pickup Truck	30,000	-	-	-		-	30,000
Sewer Line Extension - 830 Project	1,259,060	-	-	-	-	-	1,259,060
Sewer Line Extension - Valley Protein	1,000,000	5,000,000	-	-	-	-	6,000,000

Capital Improvement Plan FY23-27

Section 5: Airport Commission

Projects assigned to the Airport category are funded through the Airport Commission Enterprise Fund. This fund only pays for projects related to the Airport. The Town maintains a Capital Reserve fund for funding projects for the airport. Contributions to the reserve fund are allocated from the Town's General Fund annual budget as well allocations made by Pender County in their annual budget.

The types of capital projects that qualify for this fund include facility additions and replacements, runway improvements including design and engineering costs. They also include equipment necessary to maintain the airport.

The icon below signifies the Airport category and is located on the top right corner of the pages that are associated with these projects.

Capital Improvement Plan FY23-27

Airport Commission Projects

Projects Funded: Construction and improvement of airport infrastructure. These projects include main additions and replacements, water/wastewater treatment plant renovations/ expansions, filter rehabilitation, pump station additions, and major maintenance of this infrastructure.

The table below shows each of the projects submitted for consideration in this year's CIP process and the estimated cost of the project in each fiscal year of the plan.

Airport Commission Fund	2022-2023	2023-2024	2024-2025	2025-2026	2026-2027	Horizon	Total Capital Cost
Runway Extension and Road Relocation	1,757,400	5,767,580	5,767,580	-		-	13,292,560
Apron Expansion and Partial Parallel Taxiway		250,000	4,776,000	-	-	-	5,026,000
East End Taxiway	200,000	1,618,000		-	-	-	1,818,000
Runway Rehabilitation and Overlay	-	2,619,500	-	-	-	-	2,619,500
Runway Light Rehabilitation			764,590				764,590
Hangar Construction				2,387,000			2,387,000
Total	1,957,400	10,255,080	11,308,170	2,387,000	-	-	25,907,650

FY 2022-2023

Runway Extension and Road Relocation

\$13,292,560

Project consists of relocating two roads and extending the runway from 4100 ft to 5500 ft. \$469,073 has been spent on this project to date. Project is fully funded by a grant from NCDOT.

FY 2023-2024

Apron Expansion and Partial Parallel Taxiway

\$5,026,000

Project is to construct a partial parallel taxiway from the existing apron to the proposed extended end of new runway on the west end. Also included is an additional apron intended for aircraft parking and preliminary site for future airport hangar and terminal.

East End Taxiway \$1,818,000

Project consist of he installation of a ease end taxiway from the existing apron to the east end of the runway. Project is a 90/10 funded grant with NCDOT.

Runway Rehabilitation and Overlay

\$2,619,500

State recommends runway pavement requires rehabilitation. Project is anticipated to require a 10% match.

FY 2024-2025

Runway Light Rehabilitation

\$764,590

Existing runway lighting system is reaching the end of its useful life. Plans are to have this project funded in conjunction with the planned runway extension. A 90/10 matching grant is expected to fund this project.

Capital Improvement Plan FY23-27

FY 2025-2026

Hangar Construction \$2,387,000

Currently the Town does not own any hangars. Upon completion of the airport expansion, it is recommended the Town build hangars which will provide a revenue source for the Airport. Funding sources are anticipated from Federal and State Funds for a majority of the project with a local match.

Airport Commission Summary

The table below shows the total of the capital needs for the Airport Commission Fund category and the revenue sources proposed to support these needs. Local revenue is indicative of the need for current year revenue supported funding for some projects/ purchases in each year.

At this time, no issuance of additional debt is projected to be needed to meet the capital needs described above.

Airport Commission Fund	2022-2023	2023-2024	2024-2025	2025-2026	2026-2027	Horizon	Total Capital Cost

Project Description

INCLUSIVE PLAYGROUND

Project Justification and Impact on Strategic Plan

Our goal is open Duplin County's first inclusive playground which would welcome children of all ages and abilities to play. An inclusive playground is a playground which allows children of all abilities and developmental stages to play in the same space and creates a nurturing environment for all. The benefits of an inclusive playground would not only improve the quality of life of the special needs population but would also improve the quality of life of our entire community. We anticipate outside donations and community fundraising to cover 2/3rd's of the project costs - \$250,000. Remaining funds are anticipated to be financed with other Park improvements at Boney Mill Park(Required PARTF match). Estimated annual costs to maintain new playground is \$500 a year

FARRIOR PARK AT BONEY MILL

Project Justification and Impact on Strategic Plan

The Town received a \$412,535 PARTF grant to develop Boney Mill Park(Farrior Park). Total project costs submitted and approved by PARTF is \$995,679. Grant is a 50/50 matching grant. Town has currently raised \$92,000 in matching contributions for the project. Town will continue to work with Friends of the Park to raise additional contributions. Town anticipates borrowing funds for remaining match - approximately \$400,000.

CLEMENT PARK TENNIS COURTS

Project Justification and Impact on Strategic Plan

Existing tennis courts at clement park are cracked and damaged. It has been determined the courts foundation is inadequate. Repairs to foundation and replacement of courts are required. Courts are for public use but are also used by the Wallace Rose Hill High School as their home courts. Town will seek grants and assistance from county in rebuilding the courts.

BASEBALL FIELDS, STANDS, CONCESSIONS

Project Justification and Impact on Strategic Plan

Final stage at Farrior Park at Boney Mill will be the construction of 5 baseball diamonds, two soccer fields, and ampitheater with supporting infrastructure. The Town will seek community support for the project with possible naming rights as well as additional PARTF grants. Costs are estimated at this time. Design and engineering are estimated to begin in FY23/24. Additional fulltime staff are anticipated to maintain park grounds.

AIRPACKS

AIRPACKS

Project Justification and Impact on Strategic Plan

Fire Department is on a 10 year rotation with its airpacks to stay NFPA compliant. Current airpacks were purchased in 2014 and are coming up for replacement. Department is seeking grants to assist with the purchase but has been unsuccessful to date. Department has 38 packs to replace.

Project Description

Aprial Ladder Fire Truck

Aerial Ladder Fire Truck

Project Justification and Impact on Strategic Plan

Department has identified the need for an aerial fire truck within 5 years. The Town has two multi-level apartment complexes, two story apartment buildings downtown, as well as two story hotel outside town limits. As the Town grows, more of these types of facilities are anticipated. Aerial truck would be beneficial in providing fire fighting and rescue capabilities to these facilities.

Project Description

POLE BARN

Project Justification and Impact on Strategic Plan

With the move to the new public services facility, we no longer have enough covered shelter for equipment. The equipment is now outside in the weather and the direct sun which can cause the equipment to be damaged. A pole barn will provide cover for storage and give the operators protection from teh weather when preforming maintenance on the equipment. Cost of project will be divide by Streets, Water and Collections - 5600, 8100 and 8200 as all three departments use the area. Town has a collection of poles that could be used to help reduce cost.

Project Description

CLEMENT PARK COMMUNITY CENTER

Project Justification and Impact on Strategic Plan

A new roof is needed on the community center. Town will seek grants to assist with roof replacement. Additional improvements are needed including new windows, doors, flooring and HVAC system. Once renovated, the facility will act as an additional Hurricane Evacuation Center for the County. Will also provide the community meeting space for various and beneficial programs. Rooms could be rented or used for: Karate, dance, bridge, exercise, AA meetings, job counseling, cub scouts/boy scout meetings.

CLEMENT PARK PARKING LOT

Project Justification and Impact on Strategic Plan

Once renovations to community center at Clement Park are complete, improved parking is recommended. Better parking facilities will benefit not only the community center and it's activities but the park as well.

Project has only been identified. Cost are estimated and no timeline for when project completion has been established. This project is unfunded in the current CIP.

PUBLIC SAFETY BUILDING

Project Justification and Impact on Strategic Plan

A new facility is planned to house the Town's police and fire operations. Town entered into a contract for planning and architectural services in August 2021 (CPO 22-02). Facility will be built on current Town land shared with Town Hall. Final design and costs have not been determined.

Project Description

FUELING SYSTEM

Project Justification and Impact on Strategic Plan

Recommendation is to setup a fueling station at Public Services Operation Center where all Town vehicles could be fueled. Town would purchase fuel in bulk and save money rather than buying at retail vendors. Town purchases 30,000 gallons of gasoline and 5-6000 of diesel annually. Estimated savings per yer would be \$15,000, payback would be 6 years.

During States of Emergency, Town would have fuel available to operate.

It is anticipated that two 10,000 gallon tanks would be required with fuel pumps and automated software system for tracking. Project has been identified and price estimated.

Project is not funded and is recommended sometime in the future

Project Description

FLOOD MITGATION CURRIE/DUPLIN STREETS

Project Justification and Impact on Strategic Plan

Open stormwater ditch is failing and encroaching on neighboring property owner. Ditch side walls need to be stablized and further clearing and cleaning needs to be done to Little Rockfish Creek.

The Town is in the process of applying for a Golden Leaf Grant to pay for this project.

STREET SWEEPER

Project Justification and Impact on Strategic Plan

Current Sweeper is seven years old and due for replacement. Old unit has had multiple repairs.

Town is negotiating with NCDOT to provide annual support to assist with ongoing maintenance.

Old unit was reported in General Fund and proceeds from sale will be reported there.

Project will be financed with first payment not due until FY23-24

Project Description

SEWER LINE EXTENSION

Project Justification and Impact on Strategic Plan

An approximate 6 mile sewer line extension to Valley Protein in Rose Hill is planned.

Line will supply service to Valley Protein as well as open up development opportunities for the Town of Teachey and or Wallace.

Project is fully funded through grant with the State.

The Town of Rose Hill may also decide to tap onto the line.

Project Description

AMI WATER METERS

Project Justification and Impact on Strategic Plan

This project is in the evaluation period approved by Council. All water meters will be replaced with a new AMI meter. The Town has contracted with MeterSys to help evaluate best meters and system for our Town and will also oversee installation of meters and software system.

New system will improve reading of meters. Will allow remote reading from Town Hall and notify customers of potential leaks in real time.

Several existing meters no longer read accurately. This will improve accuracy and revenue.

Town will seek grant assistance or low interest loan for this project.

Project Description

SBR#3 DECANTER UPGRADE

Project Justification and Impact on Strategic Plan

SBR #1 and #2 have been upgrade. Upgrade will help reduce discharge of solids from plant caused by air leaks in the current decanter system. The air lines lie below several feet of dirt and concrete making it hard to locate and repair air leaks. When the air pressure leaks down it lets the decanter let water out no matter what cycle it is in.

Project Description

Road Relocation and Runway Extension (Fully funded through NCDOT)

Project Justification and Impact on Strategic Plan

Road Relocation and Runway Extension (Fully funded through NCDOT). This project consists of relocating two roads and extending the runway from 4,100ft to 5,500ft. At some point upon the project completion, a new position will be needed to assist in maintenance and operations. This project will also allow construction of new hangars which will increase revenue in hangar rent and fuel sales.

The \$10000 cost listed is due to the reduction of rental properties that will be removed upon road relocation. By FY 25, revenues are expected to replace some operational cost increases.

Project Description

Hangar Construction

Project Justification and Impact on Strategic Plan

Currently the Airport does not own any hangars. Upon completion of the airport expansion project, it is expected that the airport will be able to build hangars. Funding sources are expected to be a combination of Federal, State, and Local funds. This project will allow to airport to substitute revenues that are expected to be lost within the next five years. Regardless of funding sources, the project is estimated to have a net positive cash flow with a local match of \$238,700.

Project Description

Runway Light Rehabilitation

Project Justification and Impact on Strategic Plan

The existing runway lighting system is reaching its useful life. It is the intentions of the Airport to have this project funded in conjunction of the planned runway extension. This project is expected to require a 10% match. This project will reduce utilities and reduce maintenance costs.
